

Outback Experience Wildlife Explorer Safari Itinerary

Departs daily 11.30am – 1.30pm

Cost: \$38 adult \$19 child

Tour Itinerary

You travel the 4wd tracks of the 2000 hectare Mareeba Tropical Savanna and Wetland Reserve with your safari guide in our custom built, open-sided safari vehicle. Our first stop is to marvel at the 19m long stainless steel lizard sculpture 'Kadimakara,' donated to the Reserve by a leading Japanese artist to raise awareness of the need to conserve wild rice habitat. We make our way through the outback savanna past delightful Lily Lagoon and Balancing lagoon to the northern part of the Reserve, hoping to spot some of the kangaroos and wallabies or other wildlife found in the Reserve.

We stop for a snack and a swim at Douglas Cascades, with the opportunity to relax in a delightful waterhole before returning to the Interpretive Centre via the Douglas Track.
