

Outback Experience Sunset Wildlife Safari Itinerary

Departs daily 3.30pm

Tour Itinerary

At 3.30pm we take to the waters of Clancy's Lagoon for a 30 minute eco cruise in our quiet and environmentally friendly electric boat. Your guide will interpret the wetland environment and describe the numerous water bird species.

Taking to our vehicle, we stop and marvel at the 19m stainless steel lizard sculpture 'Kadimakara,' donated to the Reserve by a leading Japanese artist to raise awareness of the need to conserve wild rice habitat. We travel the internal tracks of the 2000 hectare Mareeba Tropical Savanna and Wetland Reserve to Pandanus Lagoon. Here we are able to view the waterbirds from our bird hide and spot forest birds and other wildlife, including kangaroos and wild pigs.

After boiling the billy for a cup of afternoon tea, we make our way back to the deck of the Interpretive Centre before watching the sun set over the Lagoon and Hann Tableland enjoying wine and cheese and observing the Lagoon birdlife.
